

# UKEIA A-Z DIRECTORY

EDIBLE INSECT FOOD  
PRODUCTS AVAILABLE  
FROM THE UK EDIBLE  
INSECT ASSOCIATION'S  
MEMBERS

This directory holds  
information on the diverse  
array of edible insect products  
available from current UKEIA  
members, both in full form  
and as an ingredient.

**Disclaimer:** Mention of a brand shall not be construed to be an endorsement or recommendations of any third party's products by UKEIA. Organisations must rely on their own enquiries and due diligence as to the suitability of any products provided by such third parties and UKEIA shall have no legal liability to any party for any losses flowing from the use of any third party's products. We attempt to keep this Directory up to date but we do not guarantee the availability of all products mentioned.

- UK ENTOMOPHAGY, INSECTIVORE, AND BIOMASS SECTORS GROW AND THRIVE

## OUR MEMBERS ARE:

- INSECT FARMING EXPERTS, SPECIALISTS AND TECH PROVIDERS
- INSECT FARMERS
- PRODUCT DEVELOPERS AND MANUFACTURERS
- RETAILERS, CHEFS, RESTAURATEURS, WRITERS, COMMUNITY ORGANISATIONS
- FOOD CURIOUS: EXPLORERS, INNOVATORS, AND INVESTORS

# ALTIMATE NUTRITION

**Contact: Gavriel Tan – [gav@altimatenutrition.com](mailto:gav@altimatenutrition.com)**

**Website: <https://altimatenutrition.com/>**

**Email: [info@altimatenutrition.com](mailto:info@altimatenutrition.com)**

**Tel: +65 91695214**

**About:** Altimate Nutrition see insects as more than just a protein source. They're a way to nourish both people and the planet. Their mission? To make delicious, nutritious snacks that are good for you and kind to the Earth. They are here to challenge the norms, disrupt the food industry, and show that sustainability doesn't mean sacrificing flavour or fun. Can provide bespoke catering for events such as festivals and more.

**Insect used:** Acheta Domesticus (House Cricket), Bombyx Mori (Silkworm)

**Food type currently available:**

Cricket protein bars, Cricket protein powder, Roasted crickets and silkworms

# BUGVITA

PIONEERS IN INSECT-BASED NUTRITION

**Lead contact: Adam Banks – [adam.banks@bugvita.com](mailto:adam.banks@bugvita.com)**

**Website: [www.bugvita.com/shop](http://www.bugvita.com/shop)**

**Email: [info@bugvita.com](mailto:info@bugvita.com)**

**Tel: +44 7570 717866**

**About:** At Bugvita, we specialize in transforming farm-raised insects into premium, nutrient-rich food solutions. Operating from our state-of-the-art, insect-only processing facility, we cater to both wholesale and retail markets. We also offer white-label and contract manufacturing services, allowing businesses to create their own innovative insect-based products.

**Insect used:** Acheta Domesticus (House Cricket) and Tenebrio Molitor (Mealworms)

**Food type currently available:**

- Cricket Powder/Flour: 100% pure. Available in 100g (5 servings) and 500g (XL) pack – ideal for sports nutrition, cooking, and baking.
- Whole Roasted: Unseasoned crickets and mealworms, available for both wholesale and retail.
- Bugvita Flavoured Snacks: 12 crunchy, ready-to-eat flavors in 20g packs.
- Bugvita Baking Mixes: High-protein Cricket Pancake Mix and Cricket Cookie Mix, made with cricket flour.
- Bug Box: A 9-pack gift box, featuring a selection of Bugvita's best-selling insect snacks.

# EDIBL

**Contact:** Dr. Geoffrey Knott – [geoff@edibluk.co.uk](mailto:geoff@edibluk.co.uk)

**Website:** <https://www.edibluk.co.uk>

**Email:** [geoff@edibluk.co.uk](mailto:geoff@edibluk.co.uk)

**Tel:** N/A

**About:** edibl's vision is 'A Cricket in Every Product', and we will become the UK's leading cricket protein producer helping kickstart our emerging insect economy. We wanted to grow crickets locally and within the UK to satisfy the highest quality standards, minimise logistical emissions and disruption, and boost the nation's food security.

After several years of R&D we raised investment to setup our first commercial farm in East England. We are now scaling up faster and further and collaborating with UKEIA members and food businesses to bring crickets to the mainstream.

**Insect used:** Acheta Domesticus (House Crickets)

**Food type currently available:**  
UK-grown crickets supplied for use

**Can import into the UK subject  
to Minimum Order Quantity  
agreement**

## **ESSENTIA PROTEIN SOLUTIONS**

**Contact: Richard Parnell –**  
**Richard.Parnell@essentiaproteins.com**

**Website: <https://essentiaproteins.com/int/>**

**Email: [contact.us@essentiaproteins.com](mailto:contact.us@essentiaproteins.com)**

**Tel: +44 (0) 121 5214300**

**About:** Essentia Protein Solutions is a global producer of animal protein solutions for the food and beverage industry. All Essentia ingredients are derived from natural raw materials. The advanced fractionation methods used in their modern facilities only involve thermal and mechanical processing, without using food additives of any kind.

**Insect used:** Acheta Domesticus (House Crickets)

**Food type currently available:**  
Cricket protein powder

# EUROCRICKETS

**Contact:** Kristina Mačianskytė – [info@eurocrickets.com](mailto:info@eurocrickets.com)

**Website:** <https://eurocrickets.com/>

**Email:** [info@eurocrickets.com](mailto:info@eurocrickets.com)

**Tel:** +370 644 44642

**About:** Eurocrickets is a reliable supplier of premium cricket ingredients for food production, pet nutrition, and feed applications. Offering dried crickets, frozen crickets, and finely milled cricket powder, Eurocrickets provides high-protein, functional raw materials for businesses seeking innovative and efficient solutions.

- ✓ For Food Industry – Premium cricket powder for protein-rich formulations.
- ✓ For Pet & Animal Feed – Nutrient-dense, highly digestible insect-based raw material.
- ✓ Strict Quality Control – Consistent, safe, and compliant with industry standards.
- ✓ Scalable & Reliable Supply – Efficient production with on-time deliveries.

With a strong B2B focus, Eurocrickets ensures stable supply, consistent quality, and business-ready solutions for companies integrating insect-based nutrition into their products.

**Insect used:** Acheta Domesticus (House Cricket), Migratory locust (Locusta Migratoria)

# HOP

**Lead Contact: Geoffrey Knott – [geoff@hopbar.co.uk](mailto:geoff@hopbar.co.uk)**

**Website: <https://www.hopbar.co.uk/>**

**Email: [contact@hopbar.co.uk](mailto:contact@hopbar.co.uk)**

**Tel: N/A**

**About:** At HOP, we aspire to make protein bars that are not just healthier or a more sustainable alternative, but much more than that. Aiming to change modern nutritional and cultural trends forever, we actively contribute to the latest research on edible insects through partnerships with UK and international universities.

Our delicious cricket protein bars can be your partner on this healthy and sustainable journey.

**Insect used:**

Acheta Domesticus (House Cricket)

**Food type currently available:**

Cricket protein bars

**Can import into the UK subject  
to Minimum Order Quantity  
agreement**

## NUTRIBUG

**Contact: David Binns – [david@thailandunique.com](mailto:david@thailandunique.com)**

**Website: <https://nutribug.com/>**

**Email: [hello@nutribug.com](mailto:hello@nutribug.com)**

**Tel: +44 (0)1483 811244**

**About:** Nutribug specializes in creating innovative food products using edible insects, particularly cricket-based protein products. Their mission is to change Western perceptions about eating insects by developing nutritious and sustainable food items.

This food has all the nutrients any health-conscious person would want without having to chew an insect.

**Insect used:** Acheta Domesticus (House Cricket)

**Food type currently available:** Cricket powder, Beanup Butter (high-protein spread containing cricket powder), Cricket protein bars, Cricket protein capsules, Cricket protein pasta, Roasted flavoured cricket

# THE INSECT CAFE

**Contact:** Nahla Mahmoud – [nahla@theinsectcafe.com](mailto:nahla@theinsectcafe.com)

**Website:** <https://theinsectcafe.com/>

**Email:** [info@theinsectcafe.com](mailto:info@theinsectcafe.com)

**Tel:** N/A

**About:** Scotland's first space pioneering the use of insects in food, based in Edinburgh. They make handcrafted, high-protein bakes and snacks with locally produced insects and wholesome ingredients. Inspired by cultures worldwide, their healthy treats are free of flour, refined sugar, and processed ingredients, celebrating natural flavours and sustainable nutrition. They offer unique products with bold flavours like vanilla & cumin mealworm cookies, Yellow beetle turmeric muffins, and almond cricket brownies.

**Insect used:** Acheta Domesticus (House Cricket) and Tenebrio Molitor (Mealworms)

## **Food type currently available:**

- Freshly baked Insect cakes, Freshly baked Insect savoury bakes, Insect flour and baking kits, Insect chocolate, Whole roasted insect packs.
